 **Analysys**

Analysts/Senior Analysts

Ref: 2375

These roles involves planning and writing published reports on developments in telecoms, contributing to our online database services and participating in customised research projects for clients. You will work with researchers, project managers and consultants to deliver a high quality product. You must be able to demonstrate extensive experience in analysing developments in the telecoms sector, or in related areas such as IT, multimedia or broadcasting, the ability to explain complex business and technical issues and have very strong numeracy and writing skills.

Consultants/Senior Consultants

Ref: 2376

Analysys has exciting opportunities for experienced consultants and practitioners who are already established in the telecoms industry or who are aiming to specialise in this sector in the future. An ability to deliver strategic insight and analysis is essential, as is experience of managing projects and client relationships. You will be rewarded with the scope to develop your expertise and strategic consulting skills in a dynamic, growing culture that fosters intellectual freedom and intellectual contribution.

The company offers a highly competitive salary as well as a comprehensive benefits package.
